

# La Planète Cœur Nature

- Here we celebrate life, health and abundance. We offer a total change of scenery. Everything has been carefully planned to maximize your stay and get you right into the swing of things.

Just come with your sleeping bag and your bio-degradable toiletries (so not to pollute our precious, pure water). Hot water is solar heated and there are showers in the bathrooms. You can smoke at the gate if you absolutely cannot resist the temptation, but no alcohol and no red meat is consumed on the property. The food is abundant and organic, flavored with tastes from India, Asia and South America. Cell phones are kept in the cars in the parking area, where they will function better.

**On arrival the group rep is required to provide the names, addresses and email for all persons present and proof of insurance for the group.**

- **Reservation:** a check for 300€. This check will be returned if nothing has been damaged and if the cleaning has been done correctly.
- **Prices:** overnight stay 40€  
Full room and board 60€ (room with 5 beds)  
Full room and board 70€ (room with 2 beds)

**Access to the gite:** located at 300 m altitude, "La Planete" overlooking the Gulf of Saint-Tropez. (Latitude 43°21'55.01"N - Longitude 6°37'48.62"E) Your GPS, however, will not guide you to the end, so please follow the instructions below:

Midway between Sainte-Maxime and the highway toll booth from Le Muy (CD25), exit when you see a cross street marked "Plan de la Tour, itinéraire touristique". DO NOT CROSS THE BRIDGE, instead follow the sign that says "sens interdit sauf riverains" (do not enter except residents) then follow the road 'col de Peigros' up 3 km.

At the top, facing the ruin, take the path downhill for 1 km to the crossroads, then continue straight, avoid going downhill again and after 20 m take the trail that goes up (you won't see this road from the crossroads), then follow the road up 500 m and you are there !

*Welcome !  
Dadou*
